

Rubrik Complete Edition

Powerful, Affordable and Easy-to-Use

Rubrik simplifies backup and instant recovery across hybrid cloud environments. It eliminates legacy backup complexity by integrating data orchestration, catalog management, and continuous data protection into a single software platform. With Rubrik, companies can deliver near-zero RTOs with predictive search, unlock cloud for long-term data retention, and recover instantly from ransomware with immutable backups native to the platform.

Rubrik Complete Edition delivers the enterprise-grade functionality of Rubrik Cloud Data Management software, packaged to be affordable. With a single Rubrik Complete Edition subscription license, you can migrate licenses into the cloud at any time. Keep your data center modern for the hybrid cloud era with peace of mind.

Rubrik Complete Edition Elite completes your ransomware remediation story, making it easier and faster to recover from an attack, scan for malware in your backups and reduce your sensitive data exposure.

GET UP AND RUNNING

Set up in about 15 minutes with Rubrik's plug and play appliances. Determine what policies to apply. Rubrik takes care of the rest.

RECOVER FROM RANSOMWARE

Protect from ransomware with natively immutable backups that can't be encrypted or deleted. Identify anomalies, see what data has been impacted and restore to the most clean state.

NEAR-ZERO RTO AND RPO

Avoid data loss and minimize downtime with continuous data protection and instant recovery.

OVERVIEW OF RUBRIK COMPLETE EDITION SOFTWARE

	COMPLETE For organizations that require modernized data protection	COMPLETE PRO For organizations that need to quickly investigate anomalies	COMPLETE ELITE For organizations that need comprehensive ransomware remediation
CDM (Cloud Data Management) Backup & recovery, replication, cloud archiving and instantiation, search, and analytics built on a zero trust file system with logical air gap	✓	✓	✓
Ransomware Investigation (Radar) Analyze what data has been impacted in a ransomware attack and determine blast of radius		✓	✓
Incident Containment Scan for malware and compromise to avoid malware reinfection, and drive threat hunting workflows from SOAR solutions			✓
Sensitive Data Discovery (Sonar) Assess data risk and exfiltration via an automate classification engine and pre-built analyzers			✓
Orchestrated Application Recovery (AppFlows) Orchestrated recovery playbook to get your application to the nearest clean state, with sequencing order and recovery type			✓
Cloud Workload Protection* Migrate and secure your public cloud infra, workloads, and applications via a single pane of glass	Cloud Native Protection	Cloud Native Protection	Universal Cloud Licenses

*Please note that cloud workload protection included in Rubrik Complete is only for workloads migrating from on-premises to the public cloud. Universal cloud licenses are available as an add-on to protect workloads residing in public cloud from the onset of the subscription term.

HOW RUBRIK COMPLETE EDITION WORKS

Rubrik Complete Edition is offered as a 3-year minimum subscription that includes software, hardware and Basic Support (M-F 8am-8pm). All Rubrik Complete Edition licenses can be transferred to the cloud during the term of the subscription at no additional license cost. Cloud licenses in Rubrik Complete Edition are eligible only for cloud migration use cases. Rubrik Complete Edition renewal prices are predictable, which means no surprises at renewal time.
